FOREWORD

Securities and Exchange Board of India (SEBI) is bringing out the “Handbook of Statistics on Indian Securities Market” for the first time. SEBI intends to publish this handbook every year. The underlying objective of this new initiative is to disseminate data on Indian Securities Market. The broad parameters of this new venture are in congruence with the Standard Data Dissemination Programme (SDDP) of the International Monetary Fund and are also in conformity with the broad objectives of the National Statistical Commission.

The publication comprises of two parts and covers time-series data, consolidated and compiled from different sources. Part I deals with annual and monthly data on Securities Market and Part II covers related-economic indicators pertaining to securities market. I am confident that the report will serve as a useful repository of information, for both domestic and overseas participants of the Indian securities market, policymakers, academicians and foreign securities market regulating bodies.

The untiring efforts of the Research Department, SEBI under the leadership of Shri P. K. Mishra, Executive Director and the very able guidance of Shri Sarat Malik, Deputy Director in bringing out this report is praiseworthy. The hardwork put forth by Smt. Deepali Dixit deserves appreciation. The very useful support received from Shri Himadri Shekhar Verma, Kum. Deepthi L.S. and Shri M.Krishnamoorthy deserves special mention.

G.N. Bajpai

The weight is calculated as the share of the transaction in a given security in the aggregated value of transactions in the said security. Prior to April 2000, the redemption yield was not weighted and was computed as an average of daily prices of each security.
