NSE Shortcuts

Below is a list of news search shortcuts you can use from the command line in conjunction with NSE, either on their own or combined with other shortcuts

NSE “Tail” Commands:

These functions work when used together with NSE on the command line

Shortcut	Syntax	Description	Example
Headlines	IN HEADLINES	Searches only the headlines of stories	NSE BERNANKE IN HEADLINES
Wire	IN WIRE:	Searches only within a specific wire, or returns all stories from a given wire	NSE OBAMA IN WIRE:WEB NSE WIRE:BN
Topic	IN TOPIC:	Searches only for stories classified to given NI code	NSE BERNANKE IN TOPIC:FED; NSE CITIGROUP IN TOPIC:BNK
Company	IN COMPANY:	Searches only for stories tagged to given ticker	NSE THAIN IN COMPANY:MER; NSE SANDERSON IN COMPANY:NRK@LN
Region	IN REGION:	Searches only for stories from sources from a given region	NSE BERNANKE IN REGION:US
Language	IN LANG:	Searches only for stories in a given language	NSE SIEMENS IN LANG:GERMAN; NSE SARKOZY IN LANG:FRENCH
Person	IN PERSON:	Searches only for stories tagged to a given person	NSE COMMENTS IN PERSON: 4401954

Other NSE Operators:

These functions can be used with NSE to tie different aspects of a search together

Phrase	“PHRASE HERE”	Searches for an exact phrase	NSE “FED CUT” ; NSE “AUTO SALES”
Or	OR	Searches for one word/topic/wire or another	NSE WIRE:BN OR WIRE:NYT; NSE BERNANKE OR “FEDERAL RESERVE”
Proximity	N/(#)	Searches for words or phrases within a certain proximity of one another	NSE ECONOMY N/3 BERNANKE (“Fed” within 3 words of “Bernanke”); NSE MURDOCH N/5 “NEWS CORP” (“Murdoch” within 5 words of “News Corp”)
Wildcard	*	Searches for different versions of a word	NSE ECON* (Searches for “Economy,” “Economic,” etc.)
Proximity and Order	NP/(#)	Searches for words or phrases in a certain order and within a certain proximity	NSE FED NP/2 CUT (“Fed” occurring before and within two words of “Cut”); NSE “STEVE JOBS” NP/3 ANNOUNCED (“Steve Jobs”

Bloomberg

			occurring before and within 3 words of "Announced")
Grouping by Parentheses	(Keyword, Topic, Company)	Groups and prioritizes search criteria within parenthesized statements; allows searches in one or another topic, or one or another keyword	NSE BERNANKE WITHIN (TOPIC:FED OR WIRE:BN) ; NSE (BERNANKE OR CUT) WITHIIN (TOPIC:FED OR TOPIC:ECO)
And	AND	Searches for one word/topic/wire and another	NSE BERNANKE AND "FED CUT" ; NSE TOPIC:BNK AND TOPIC:ERN
Exclusion	AND NOT	Omits keywords, topics, people, regions or topics from a search	NSE BLOOMBERG AND NOT MAYOR; NSE TOPIC:BNK AND NOT TOPIC:ERN

Combining NSE Shortcuts:

You can combine different shortcuts as long as the search terms fit in the command line; if not, you can still combine them from the "Advanced Search" screen.

You can do a search that uses the same shortcut multiple times, or combines several shortcuts together:

- NSE "BEN BERNANKE" IN HEADLINES IN TOPIC:FED
- NSE THAIN IN COMPANY:MER OR COMPANY:NYX OR TOPIC:BNK
- NSE "MERRILL LYNCH" IN HEADLINES IN WIRE:BN OR WIRE:NYT
- NSE WIRE:BN OR TOPIC:FIN OR TOPIC:TOP OR REGION:US
- NSE TOPIC:BNK AND NOT TOPIC:ERN
